🏠 // SHEETS

## C R Sheet

CR sheet is cold rolled steel which is manufactured by drawing from HR coils. They are manufactured below 740 degree Celsius. Look-wise they are white shiny silver-color with oil on the surface. They are also represented by the thickness of the sheet. They are available in coil-form or bundle-form.

Thickness	Gauge
2.0mm	14G
1.6mm	16G
1.2mm	18G
0.8mm	22G
0.6mm	24G
0.5mm	25G
0.3mm	30G

## G C Sheet

We sell GC sheet in length of 8ft, 10ft, & 12 ft of manufacturer like Tata, Jindal, Sail, Ispat, National, Shree Pre coated. GC Sheet is a corrugated galvanized Plain sheet generally used in roofing purpose. GC Sheets are always in Bundles & of standard lengths which are 6ft, 8ft, 10ft & 12ft. And of width 2.75ft to 3.0ft.

Thickness	Gauge
2.0mm	14G
1.6mm	16G
1.2mm	18G
1.0mm	20G
0.8mm	22G
0.6mm	24G
0.5mm	25G
0.3mm	30G

## GP Sheet & Coil

We sell GP Coil/Sheet manufactured by Jindal, Tata, ISPAT, Sail, Lloyd, National, Shree pre coated, Uttam & Imported. GP Sheet is Galvanized Plain Sheet which is manufactured by Zinc - coating on CR Sheet. Physically it looks silver - Shiny material.

Thickness	Gauge
2.0mm	14G
1.6mm	16G
1.2mm	18G
1.0mm	20G
0.8mm	22G
0.6mm	24G
0.5mm	25G
0.3mm	30G

## HR Sheet

We sell HR sheet of Sail, Essar, ISPAT, Lloyd, Jindal, & Imported.

We sell HR sheet thickness of 1.4mm to 4mm & width 80mm to 1800mm depend on availability. We also provide slit coil as per your width requirement from as low as 25mm to as high as maximum upto 1500mm.

HR Sheets are Hot Rolled Sheets cut from hot-rolled coil of thickness starting from 1.2mm to 4mm (above 4mm it is called as Plates). Sheets are generally represented by thickness of sheet. For e.g. 2mm sheet means, Thickness of sheet = 2mm. HR Sheet is Black in color either available in Coil-form or Bundle-form.

Thickness	Gauge
1.2mm	18G
1.6mm	16G
1.6mm	16G
1.8mm	15G
2.0mm	14G
2.5mm	12G
3.0-3.5mm	24G
